

I have been listening to KLOVE radio station for the past six months because The Fish radio station's license was not renewed. That is my main reason for filing my comments today. I don't want this station to go off the air without saying something about it. I love being able to listen to music that is not explicit or with foul language. I am a Christian woman who needs some encouraging words, songs, info. about seminars, etc. My daughters-ages 12 and 15-wake up to Klove every morning and I listen to it on my 40 min. drive to and from work. Klove e-mails me the encouraging word for the day every morning. I would like to continue listening to them for years to come.
